IFP Sub-process

ALLOCATION OF SBAS CHANNELS IN THE UK

APDO prepares IFP package using ##### throughout documentation for the (yet to be allocated) SBAS Channel/s

APDO completes and submits the UK duplicate SBAS Channel spreadsheet along with the IFP Package

IFP Regulator assesses IFP package

IFP package is mature enough to proceed for validation and/or approval?

No Channel Allocated

IFP Regulator forwards the UK duplicate SBAS Channel spreadsheet to Data Regulators

Data Regulators complete the secure request in ICAO Portal

Data Regulators notify APDO & IFP Regulator of the allocated channel and store correspondence in appropriate location

End of Sub Process
